

*Natural Inquirer* - Urban Forest Edition 2005- Volume 6, Number 1

Who or What am I?

Can you figure out who or what I am? Try it!

1. We grow between the street and the sidewalk or in cracks in the asphalt. We provide lots of benefits such as preventing global warming and air cleaning. What are we?

---

2. We study the behavior of people. We help park managers improve urban parks through the information we give them. Who are we?

---

3. I'm one of the chemical elements. You can find me in all living things on Earth. I occur in the form of coal, petroleum, and natural gas. What am I?

---

4. I wash the pollution from streets, sidewalks, and building surfaces. If there are few trees in an area, I can cause soil erosion or flooding. What am I?

---

5. I'm a specific form of ultraviolet radiation. I can bring about damage to human health. I am mostly absorbed by ozone in the Earth's atmosphere. What am I?

---

6. I am a natural resource such as petroleum, coal, and natural gas. I contain carbon. When I am burned in engines, I emit  $CO_2$ , which causes global warming. What am I?

---
