

Natural Inquirer: World's Forest Edition
Who or What Am I Game

1. I am the place where a plant or animal naturally grows and lives. Sometimes I can be destroyed or protected. What am I?

2. I am an imaginary circle around the middle of the Earth. I am at an equal distance from both the North Pole and the South Pole. What am I?

3. Thirteen million hectares of forest are lost every year because of me. During 2000-2005, South America was most affected by me. What am I?

4. I am an element. The amount of me held in a tree is equal to about half the tree's removed weight after all water has been removed. What am I?

5. I know a lot about forests and work closely with scientists. I am the person who provided data to the scientists about my country's forest. Who am I?

6. I am the measure of the differences between the types and numbers of living things in a natural area. I am also considered a measure of forest sustainability. What am I?
