

Natural Inquirer Scientific Process Module

Unit 2, Lesson 1

Name:

Search the Literature

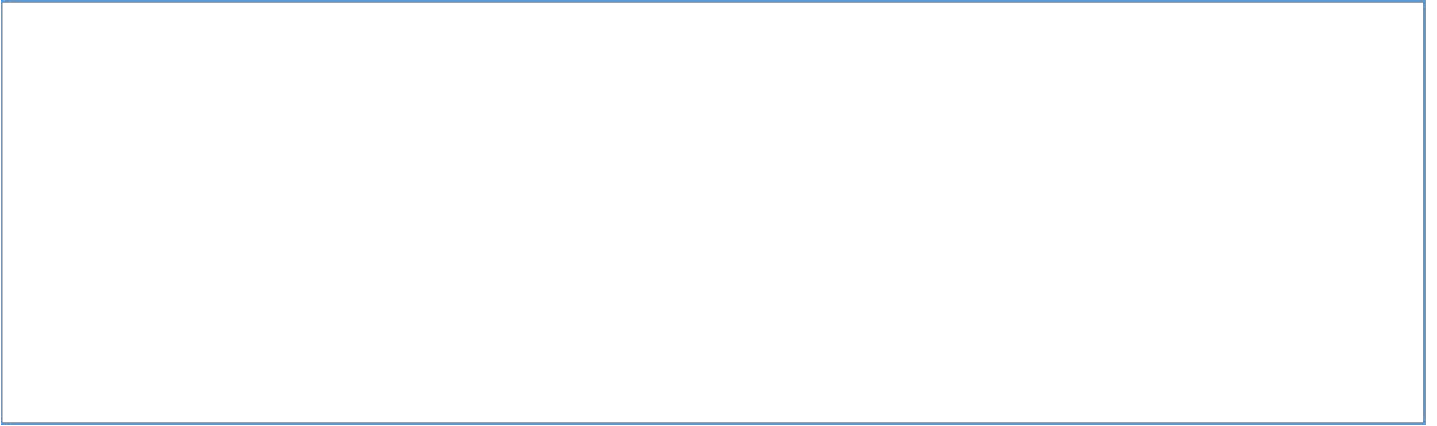

Graphic Organizer

Fill out the table below after reading the "Introduction" section. Then answer the three questions following the table.

Name of Article	Problem Being Solved

What are some similarities and differences between the problems being solved?

How do you think the scientists decided to study the problems you listed above?

What are some questions you have about the topics you are studying right now in science class? How could you state those questions as research problems?
